

PRODUCT OFFERINGS

► **Size:** Standard, Multi-Circuit, Healthcare, Feeder

► **Copper Type:** Standard, Solid

► **# Conductors** (All with Ground): 2-wire, 3-wire, 4-wire, 6-wire, 8 wire, 12 wire

► **Conductor Gauge:** #14, #12, #10, #8, #6, #4, #3, #2, #1, #1/0, #2/0, #3/0

► **MC Length:** 6', 10', 14' 18', 22', 26', 30', 34', 38', 42', 46', 50'

► **Cladding Material:** Aluminum, Steel

► **Connector:** None, Both Ends

■ Denotes CTO [Custom to Order] option

APPLICATIONS

Excellerate cable whips are used in new or retrofit construction for branch power and lighting system operating at 120/277 Volts AC.

Cabling is most commonly integrated into the architecture and structure of a building using listed fastening means and methods.

PRODUCT FEATURES

- Expedited installation
- Pre-cut lengths
- Color-coded for voltage usage
- Length is Connector to Connector
- Stripped Cable Lengths as follows:
#14-#18 = 12", #6-#2=4', #1-#3=6'

COMPLIANCE

- Meets the requirements of the 2017 National Electrical Code
